MEMORANDUM FOR INPROC USERS

SUBJECT: Software Version Description (SVD) for the Installation Support Module (ISM) Military Personnel In-Processing (INPROC) Interim Change Package (ICP) P09-A13-09-01-A

1. Enclosed is ICP P09-A13-09-01-A, which provides a formal change to the Military Personnel In-Processing (INPROC) ISM.
2. Acknowledgement of this ICP installation must be made IAW instructions provided in Enclosure 1.
3. This memorandum certifies that the ISM subject software has been thoroughly tested, is considered to be a quality product, and is hereby authorized for release to a production environment.
4. Security Implications: None.

## **1.0 Scope.**

### **1.1 Identification.**

This Software Version Description (SVD) applies to the Military Personnel In-Processing (INPROC) running on networked AIX operating system on UNIX platforms.

### **1.2 System Overview.**

INPROC is part of the ISM Project that is an Army-wide Major Automated Information System (MAIS) initiative. The primary objective of ISM is to enhance, through automation, installation management functions. ISM applications consist of standard procedures packaged into functional applications that automate as well as integrate day-to-day installation processes. ISM applications use the Installation Level Integrated DataBase (ILIDB), which is the central repository for data that is common to more than one ISM application, and various local databases that contain data elements unique to the individual ISM applications.

The purpose of the INPROC ISM is to ensure that soldiers are ready for deployment and that they meet all soldier readiness personnel processing requirements. To support this goal, INPROC assists in-processing clerks to process Army soldiers and their families upon arrival at an installation.

INPROC's benefits include:

- ? Elimination of multiple data entry and redundant record keeping
- ? Data validation
- ? Providing in-processing uniformity across all installations

### **1.3 Document Overview.**

This document provides the necessary instructions for implementing the formal INPROC Interim Change Package (ICP) P09-A13-09-01-A. It informs users of the changes made to the system and provides Points of Contact (POCs) in the event of problems.

## **2.0 Referenced Documents.**

This paragraph has been tailored out.

## **3.0 Version Description.**

### **3.1 Inventory of Materials Released.**

This paragraph has been tailored out.

### **3.2 Inventory of Software Contents.**

Hardware platform UNIX AIX OS users (installation supported).

This change package contains the following files.

<b>Program</b>	<b>Version</b>	<b>Update</b>
inproc_0901.cpio.Z	0900	05 Jul 2000
install_inproc_0901	0900	05 Jul 2000
README.inproc_0901	0900	05 Jul 2000

### **3.3 Changes Installed.**

#### **3.3.1 Corrector Descriptions—Technical.**

1. ECP-S/E P09-R202-002
  - A. CYCLES: None
  - B. PROGRAM: INPROC
  - C. PROBLEM: When preparing DD Forms 93, DOBs for all associated individuals are currently required entries. Only DOBs of minor children should be required.
  - D. RESOLUTION: Fixed the problem so that the DOB block is left blank for all individuals other than minor children.
  - E. ICP: P01-A13-09-01-A

#### **3.3.2 Corrector Descriptions—Functional.**

None.

### **3.3.3 Summary of Changes.**

1. Copy library member changes.
  - a. Changed: None.
  - b. Deleted: None.
  - c. Added: None.
2. Control library member changes.
  - a. Changed: None.
  - b. Deleted: None.
  - c. Added: None.

### **3.4 Adaptation Data.**

This paragraph has been tailored out.

## **4.0 Related Documents.**

### **4.1.1 Technical Documentation Changes.**

A new AIX version of Software Center Operator Manual (SCOM), AISM 25-P09-A13-AIX-SCOM dated 10 December 1999 has been issued. You may obtain the current version of AISM 25-P09-A13-AIX-SCOM from:

U.S. Army Information Systems Software Center  
Executive Software Systems Directorate  
Attn: AMSEL-SE-IS-ES, H-6  
Fort Belvoir, VA 22060-5576

### **4.1.2 Functional Manual Changes.**

A new AIX version of Software User Manual (SUM), AISM 25-P09-A13-AIX-SUM dated 01 December 1999 has been issued. You may obtain the current version of AISM 25-P09-A13-AIX-SUM from:

U.S. Army Information Systems Software Center  
Executive Software Systems Directorate  
Attn: AMSEL-SE-IS-ES, H-6  
Fort Belvoir, VA 22060-5576

## 4.2 Installation Instructions.

**Pre-Install Procedure.** Before installing the INPROC ICP P09-A13-09-01-A onto the ISM host computer, verify that the Oracle RDBMS resides on the host and is on-line.

**Install Procedure:** This procedure installs the ICP P09-A13-09-01-A INPROC R09.01 AIX version 4.2 operating system baseline onto each installation server.

Use the following procedure to install the ICP P09-A13-09-01-A:

**Step 1.** Log in with the login name of *root*.

**Step 2.** Select a drive on the system that contains at least 300 megabytes of available disk space. Change the directory to that drive and create a directory called ICP.0901. Place the following files for ICP 0901 in the directory ICP.0901.

Program	Size	Update
inproc_0901.cpio.Z	1530401	05 Jul 2000
install_inproc_0901	3504	05 Jul 2000
README.inproc_0901	1119	05 Jul 2000

**Step 3.** Change directory to the start directory and type:

```
chmod 777 install_inproc.0901 <Enter>
./install_inproc.0901          <Enter>
```

**Step 4.** The install\_inproc\_0901 program completes the following:

- a. Uncompress and uncpio the inproc\_0901.cpio.Z file.
- b. Change the ownership of and copy the files in this ICP into the home directory of user *inproc*.
- c. Record all output from each of the steps performed in a file named inproc\_0901.log

located in the directory.

**Step 5.** Review the results of the installation in  
inproc\_0901.log.

#### **4.2.1 Installation Effective Date.**

This ICP should be immediately implemented upon receipt or NLT 30 days from date of receipt.

#### **4.2.2 Security Implications.**

This paragraph has been tailored out.

#### **4.2.3 ANSOC Installation Instructions.**

All users receive the same baseline with a change package number through e-mail and Status Tracking and Reporting System (STARS) Bulletin Board System (BBS). This change package contains the following files:

<b>Quantity</b>	<b>File ID</b>	<b>System</b>	<b>Change Package No.</b>
1	inproc_0901.cpio.Z install_inproc_0901 README.inproc_0901	AIX OS 4.2	P01-A13-09-01-A

Ensure completion of all master file backups prior to loading this package.

Use these load instructions to develop load procedures that work best for your installation.

Due to various user configurations, each installation must determine appropriate block-size and library allocations.

---

**Note:** Users must **not** make changes to the files.

---

Security impact: None.

#### **4.2.4 Special Installation Instructions—All Users.**

None.

#### **4.2.5 Point of Contact.**

If there are any problems or questions with the installation, or any shortage to the contents of this package, call the Army Network and Systems Operator Center (ANSOC), Ft. Huachuca: DSN 879-6798/6858 or 1-800-305-3046.

#### **4.2.6 Report of Implementation.**

Report the implementation of this change package by completing the change package implementation form. Send this report to Ft. Huachuca using fax or email.

#### **4.3 Possible Problems and Known Errors.**

This paragraph has been tailored out.

#### **5.0 Notes**

This paragraph has been tailored out.
